

VOTE Natalie Patchett...for a new generation of leaders

By-election - DECE Representative - Campaign Platform

If I were elected as DECE Representative I would connect and communicate with the membership by utilizing personal e-mail, social media such as the ERFPeeps Facebook group, and scheduled phone calls outside of working hours. I would do everything in my influence to signify the needs and desires of the membership. I represent reaching a higher standard of personal and professional growth, while upholding the objectives of the ERF union.

If I were an ERF representative, some of the changes I would like to see happen for our membership include:

- ✚ 12 month salary: instead of employment insurance because in reality we have no paid vacation if one travels outside of Canada; if one remains in Canada one needs to be on a job search for the two month duration. Consider the competition we face with students who are also trying to find temporary part-time employment.
- ✚ Respectable salary: with the new wage increases, how justified is our salary for the amount of work we do collectively as a membership?

Your voice. Your vote.
